

perception **studio**

START YOUR APPLICATION WORK IMMEDIATELY

Intuitive, user friendly interfaces and configuration processes allow you to start your application development immediately.

REALISE YOUR IDEAS INDEPENDENTLY

Based on the Chemical Colour Imaging technology, the Perception Studio enables the independent development of unique hyperspectral applications.

EXPAND YOUR SOLUTION

Our solutions are unlimited expandable. This allows to add new methodology, processes and interfaces rapidly. Only one interface for all your processes and instruments.

YOUR BENEFITS

- Minimal training effort
- Reduced development times; up to -95%
- Direct intuitive feedback
- Configure instead of programming
- No external consultants needed
- One tool for all hyperspectral cameras
